

Lausanne, May 4<sup>th</sup>, 2020

Dear Valued Customer,

We are pleased to inform you that, under the terms of the latest Italian government decree, our Italian manufacturing facilities located in Pisa, Brescia, Romentino and Bovisio will fully reopen all operational activities from May 4th.

With the greatest sense of urgency, we will process and ship as many open orders as we are able to. In addition, we continue to work across our global manufacturing and supply networks to meet, as much as possible, the needs of our customers.

We have introduced extensive protective measures for our employees and we will continue to navigate through these circumstances with our commitment to Customer First at the forefront of everything we do.

We appreciate your patience and your commitment to Pentair as we navigate these uncharted circumstances.

And please, above all, continue to be safe.
